Foreword

The hymn tunes in this collection of last verse harmonies are those commonly found in the hymn books of the Baptist, Methodist, United Reformed Church and other Free Churches. We hope these hymn tunes will contribute to the beauty of the congregation's worship as well as providing some wonderful new tunes for those denominations who have not previously discovered this rich vein of hymnody.

For ease of use the original tune and harmony is given first, followed by a last verse treatment by one of our composers. By including some tunes in more than one key we have tried to match the variety of keys found in different hymn books.

We have enjoyed putting this collection together and we hope that those who use it, and their congregation, will derive equal pleasure.
